

SARAH KELK

Sarah Kelk is a Melbourne based painter whose work is expressive, colourful and abstract. Energised blocks of colour are central to her work and her approach is fluid and intuitive, exploring bold structure without abandoning the organic energy that appears at the beginning of each piece. Sarah submits herself to the processes and influences simultaneously, harmoniously not losing one idea to the other, but rather connecting them in a new narrative.

Born in New Zealand, 1982
Lives and works in Melbourne
